ARGUMENT, NOT MUD USED BY FALL AND CATRON AT RALLY LAST NIGHT

Despite Inclement Weather,
Good Crowd Hears Masterly
Addresses By Republican
Speakers.

IMPORTANT CAMPAIGN QUESTIONS DISCUSSED

Principles Considered With
Open Minded Fairness and
Backed Up By Unanswerable Logic.

In spite of the raw, blustery weather which kept many people indoors, and in spite of the fact that less than three hours notice had been given of the fact that the speakers were in the city, a crowd which comfortably filled the lower floor of the Elks' theater turned out last night to hear Democratic doctored excommunicated by Judge A. B. Fall of Three Rivers and Hon. Thomas B. Catron of Santa Fe.

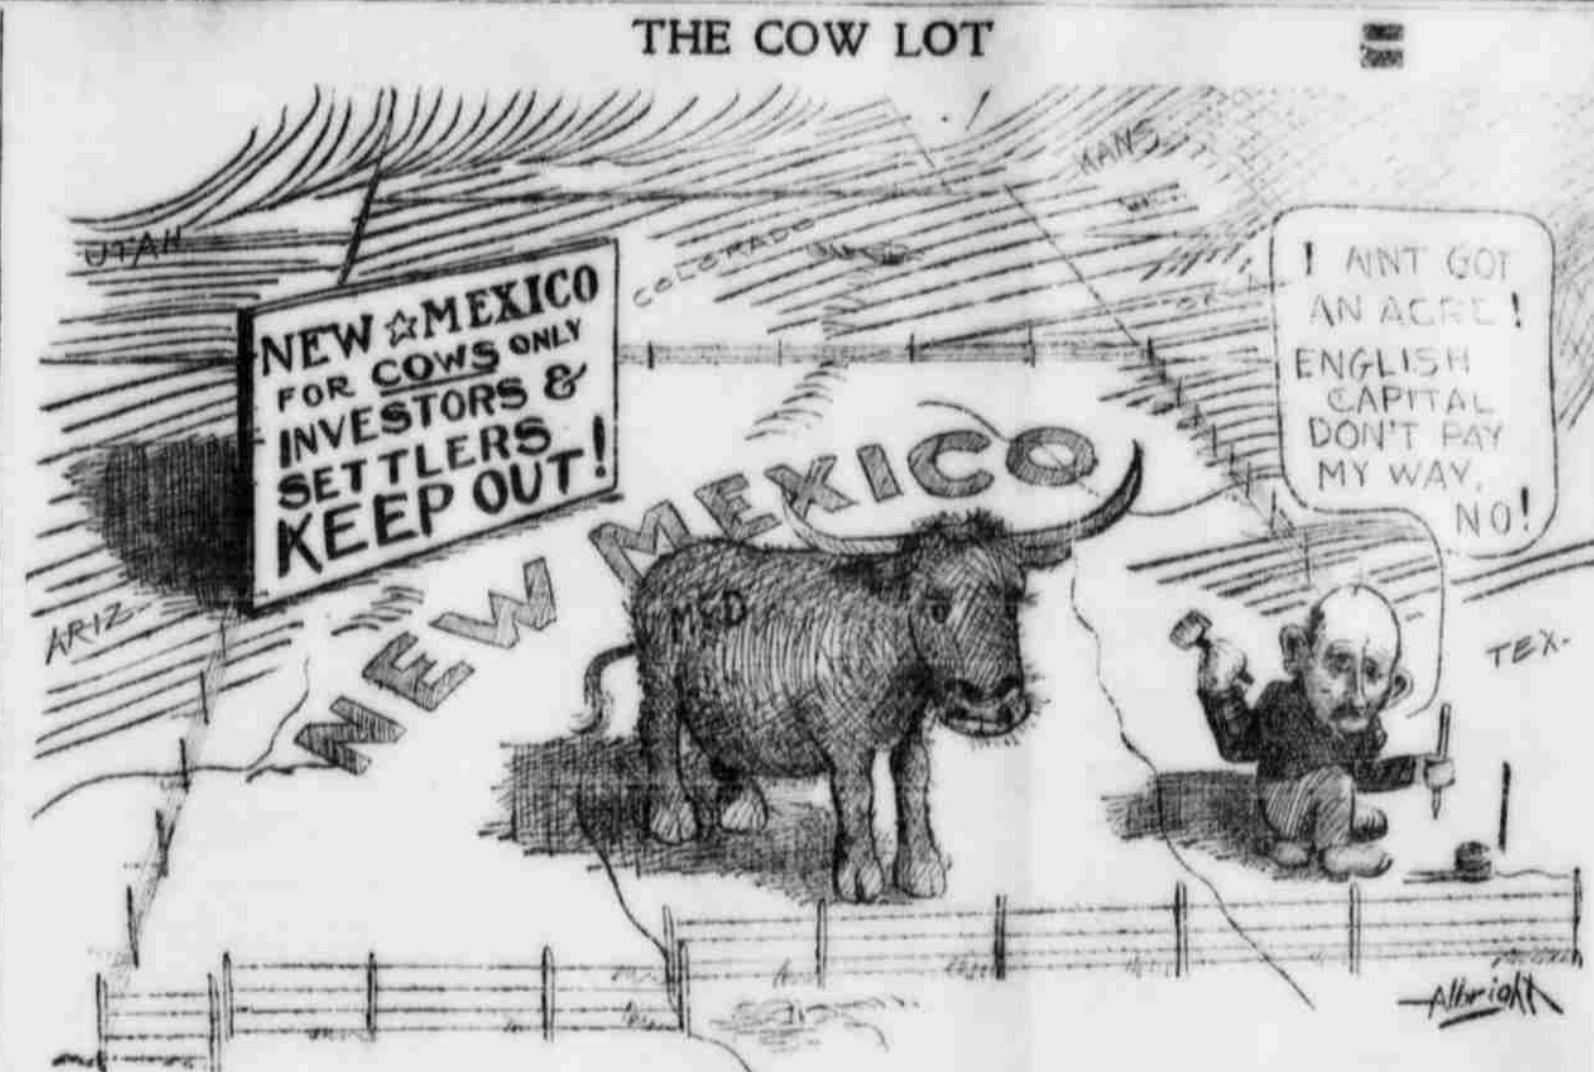

What the crowd looked in numbers was more than made up in enthusiasm and it is safe to say that had it been known earlier in the day that the meeting would be held the largest crowd that ever attended a political gathering in Albuquerque would have been in attendance. It was a typical Republican audience made up of the substantial business and laboring men of the community whose support for any ticket or platform means its certain success, and the cordial reception which was given the speakers gave ample evidence of the interest that is being displayed in the present campaign by the thinking men of all classes in New Mexico.

In striking contrast to the stream of speech which has been turned loose at every meeting which has been held by the Democrats and bushwhackers in Albuquerque since the campaign opened, the addresses of Judge Fall and Mr. Catron were calm, dignified and forceful discussions of the issues involved in the campaign. There was no mud-slinging nothing to disgust the intelligent voter who is desirous of making up his mind as to the principles involved in the coming election and who does not care to sit through several hours of nasty attack to hear a few men rail themselves over their personal spleen. Principles were discussed with open-minded fairness and backed up by unanswerable logic and personalities were avoided entirely except in so far as it was necessary to refute the lies which have been so ingeniously circulated in the enemies of the Republican party in New Mexico.

Judge E. A. Mann presided over the meeting and introduced the speakers. Judge A. B. Fall of Three Rivers, who was the first speaker, delivered an address which was a masterpiece of forcible oratory and logic, and which was frequently interrupted by enthusiastic cheering on the part of the audience. The first part of his address was devoted to a discussion of the events leading up to the passage of the standard bill by the extraordinary session of congress—events of which the speaker had first-hand knowledge, as he was in Washington at the time informing the interest of shutdown. He completely annihilated the claim that the Democratic party is entitled to credit for the admission of New Mexico to the Union and showed how its representatives, first in the person of Senator Owen of Oklahoma, and later through Messrs. Ferguson, Jones, Hand and McGill, had for the purpose of partisan advantage made every effort to keep New Mexico out of the Union, and failing in that had sought to saddle the bill granting statehood with amendments which would give them control of the state. He challenged Senator Owen and Congressman Flood to meet him on the stump in New Mexico and discuss these issues with him.

Judge Fall next took up the charge which has been made by the personal enemies of H. O. Barnes and literally tore them to shreds. Here again the speaker told of things that came within his personal knowledge as attorney general of New Mexico under former Governor Curr. He discussed the charges calmly and dispassionately, quoted the record in the case, and showed to the absolute satisfaction of every fair-minded man not only that Mr. Barnes had been guilty of any suspicion of wrongdoing but that he had been greatly maligned and persecuted by his personal enemies who were in power and in charge of the machinery of the territory at the time, and who had used every means to bring about his downfall.

Judge Fall referred to W. C. McDonald, the Democratic candidate, as a man whom he had known for many years and who had been his friend. He said that during the time that he and Mr. McDonald had served together in the territorial legislature they had occupied apartments together and had become intimate friends, and he expressed the deepest disappointment that W. C. McDonald should now lend himself to such a campaign of vilification and fit as is being waged in his behalf. Those who have followed the present campaign could not fail to be im-

The Cattle Candidate's Idea of Political Fences.

STRIKE MOVEMENT PRESIDENT GOES MAY SPREAD TO INTO NORTHWEST ROCK ISLAND SYSTEM

Mr. Taft Has Traveled for
Five Weeks, but Still Has
Long Journey Before End of
Swing Around Circle.

(By Evening Herald A. P. Leased Wire)
Kansas City, Mo., Oct. 20.—Labor leaders announced here today that the five allied crafts of shop men now on strike along the Harriman railroads are preparing to strike on the Rock Island system and that a strike vote is being taken.

The proposed strike would add between five and ten thousand men to the number already out.

It is said in labor circles that other roads are likely to be involved in the strike before it is settled.

The trouble on the Rock Island system is put the same as on the Harriman system. J. A. Franklin, president of the Butchers' union, said today: "There is a question of wage increase involved in the Rock Island trouble. The federation is interested in the same as in the present strike, but it is believed to say that the Rock Island men will strike from sympathy."

Mr. Franklin said the wage question involved a sliding scale and was so complicated that it would be hard to say just how much increase is being asked at this time.

**ITALIAN FLEET GETS
BUSY AT BENGHAZI**

Benghazi, Oct. 20.—The Italian fleet under Rear Admiral Aubrey bombarded this city yesterday and landed four thousand men, who after a brief battle, occupied a portion of the town. The greater part of troops, however, camped on the beach last night. The Turks refused to surrender and made a stubborn resistance.

BAD WRECK AT MARSHALL

Marshall, Texas, Oct. 20.—One person was killed and fifteen others seriously injured in the wreck here today of a passenger train.

**DID CANDIDATE MANZANARES
JUMP OR WAS HE PUSHED?**

The Journal-Democrat announces that Secretary Summers, chairman of the Democratic State committee, who is also candidate for the supreme court on the Democratic ticket, has received a withdrawal of Frank Manzanares, as Democratic candidate for state auditor.

Manzanares did not withdraw. He was fired. At the time of the suit he was a member of the Democratic State committee, who is also candidate for the supreme court on the Democratic ticket, and he was recognized as a weak candidate. It was known that he could not carry his own county. He was placed in opposition to William G. Ferguson, a man whose public record in New Mexico commands the support of every good citizen.

The Democratic thought perhaps that by the campaign of mud they could pull Manzanares through, but during the past few days it has been made plain that the people will not stand for it.

The Democrats earnestly solicited five men to take the vacany. Every man refused. They were finally forced to select for the vacancy Francisco Delgado. Delgado is a weaker man than Manzanares.

The disintegration of the Democratic state ticket and the Democratic-Harman campaign of mud has begun.

It is understood that the next man to come off the ticket is Judge William H. McGill, who the Democrats have had the opportunity to offer to the people of New Mexico as attorney general of this state against Frank W. Cleary. Other "withdrawals" are expected.

DARK AND GLOOMY WEATHER AGAIN CAUSES DELAY TO THE SERIES

Dark and Gloomy Weather Prevails in Philadelphia; Umpire Klem Has Doubts About a Game Tomorrow.

(By Evening Herald A. P. Leased Wire)

Philadelphia, Pa., Oct. 20.—Jupiter Player still holds the advantage in the series for the baseball championships of the world. For three days the bad weather prevented the Philadelphia Americans and New York Nationals from getting together for their fourth hit for the premier baseball honors.

Today opened as dark and gloomy as did Wednesday and Thursday and when the umpires saw that there was no prospect of the weather clearing they again decided to wait until later in the day and called the game off at 5:30 o'clock.

The game goes over until tomorrow. Umpire Klem, after an inspection of the field, says it is his opinion that there will have to be an early and rapid change in the weather if there is to be a game here tomorrow.

(By Evening Herald A. P. Leased Wire)

Bethesda, Md., Oct. 20.—Two men were drowned here today when a boat destroyed a partition between two shafts in the iron mines of the Marion Steel company and let a great quantity of water accumulate in an old shaft, flood the galleries where they were at work. All the victims are foreigners except David Shultz, foreman of the gang who lost his life in trying to save his men.

**OLD TIME HOLD UP
IN WYOMING**

Five Men Ride Into Cokeville, Terrorize Inhabitants, and Shoot at Bartender and County Officials.

(By Evening Herald A. P. Leased Wire)

Salt Lake City, Utah, Oct. 20.—A special train cokeville, Wyo., says that the mob rode into that town last evening at 10:30, nearly an hour before the place of their meeting. It is believed that two members of the party were the Whiting brothers who have been terrorizing parts of southern Idaho and western Wyoming and for whom a search is on.

The men made their appearance first at the Woonsocket saloon and during their visit made a shot at the bartender, going out on to the street they ordered the residents to their homes and while enforcing their orders with their firearms Peter H. Anderson received a bullet in the leg. Later the visitors rode in the offices of County Attorney Reynolds and took several shots at him, but none of them were effective. Just before leaving the two they rode to the Fuller saloon and fired a volley through the front window. So far as known no one was killed.

ENGLISH STEAMERS COLLIDE

(By Evening Herald A. P. Leased Wire)

Hamburg, Oct. 20.—Two English steamers collided in the mouth of the Elbe during fog today, one of the vessels sank and the other stranded. No details were available this afternoon.

THE WINNING TICKET

The Republican party has placed before the people of Albuquerque and Bernalillo county the strongest, ablest, ablest ticket that has been nominated in the history of the country.

There is no man upon the ticket whom whom a word of honest criticism can be directed. The mud, the lies and the vicious methods which are being employed by the Democrats and the Republicans in this campaign are insufficient against the candidates who have been chosen by the Republican party. Every man upon the ticket is without blemish because he deserves to win. J. L. Ferguson, candidate for state senator from the three counties of Bernalillo, San Juan and Sandoval, has wide experience in the public service. Not a single lie can be said against him. He is recognized as one of the strongest men of this country.

George A. Kallman, candidate for the state senate from Bernalillo county, will be of the greatest service to the people of this community. Mr. Kallman is a successful business man. He is efficient in fulfilling all of the greatest interests of this section. He is clean, he has never been closely associated with political affairs, nor has he ever planned this campaign because the business men whom he represents have been interested in the interests of this community in the first and the most important section of the state legislature. With George Kallman in the state senate from this country the interests of Albuquerque, the interests of the state, virtually, the best interests of the people of New Mexico will be furthered. The interests of the community will not be sacrificed to the interests of any individual.

These candidates may have been nominated by the Republicans for the office of representatives. They are headed by John W. Wilson, a clean, competent, successful lawyer—a man who has kept himself free from the throng and strife and scandal stirred up by the politicians in this country; a man who can get results. Francisco Lopez y Montoya was elected to the legislature at one time by the very men who are now enraging against him. J. G. Groom & Somach are one of the valiant, substantial, native Americans of this country. He also has but little to do with partisan politics therefore. He is running to use at this time Bernalillo county as his base of operations. The interests of the community will not be sacrificed to the interests of any individual.

Thomas McMillin, the candidate for sheriff, has an illustrious record of 12 years as city marshal of Albuquerque. During that time various demands have been made upon McMillin, various difficulties have been made to have him removed from office, but every successful investigation has been forced to an overwhelming popular demand to retain him at the front of our police department. With bounded limits, with a few men, with not the tools actually needed for his work, Albuquerque the best policed town of its size in the United States. Today Thomas McMillin stands recognized as the most efficient, cleanest, most efficient police officer in New Mexico. The people of this town know him, they have high regard for him. They are going to elect him sheriff of Bernalillo county, as the biggest majority a sheriff of this county ever received. Compare McMillin with the man who is running against him—a man who is willing to make any combination to sacrifice any principle or to make hold his office.

Every business man in this town knows Lewis C. Bennett. He started here as a cobbler—as a cobbler—in his freight car way, up step by step, winning every advance with his personal integrity and with personal ability, until he has come to be recognized as one of the few active forces in the upbuilding of this community. Every business man in Albuquerque respects Bennett. He has made good in everything he has undertaken. He will make good in the responsible office of treasurer of Bernalillo county.

John Younger is one of the pioneer citizens of Albuquerque and Bernalillo county. He has served honorably as sheriff of this country. He has been an enthusiastic backer of every movement for good government that has occurred in this county. He is the owner of large real estate and financial interests. He has the respect and confidence of the entire business community. He is the strongest and most popular man who has ever been named for the office of assessor and he is so recognized by every thoughtful man.

A short time ago when Judge Ter A. Abbott needed a chair for the Second Judicial district he was offered a dozen candidates. They were the pick of the young lawyers and accountants of Albuquerque. From the group Judge Abbott disregarding all suggestions of politicians and others interested selected Tom Maddison. Mr. Maddison is a lawyer. Up to the time of his appointment as district clerk he had never held a political office. He had not sought a political office. He was selected because of his competency and his recognized integrity. Under the State government the clerks becomes immensely important. If requires a man of the highest ability. Mr. Maddison is such a man. He has accepted the Republican nomination because of a demand from the people which insures his election by an overwhelming majority.

For supervisor of county—whether the Republican party has nominated J. B. McMillin, Mr. McMillin is not a politician. He has never taken any part in political affairs of any kind. His business is the management of steamers. In that business he has the most thorough training. He is competent to will bring the district schools of Bernalillo county to a high state of efficiency. Not a word can be said against his record and the record he has made since he came to Albuquerque attests him to be the enthusiastic supervisor of his district as an engineer.

Thomas R. Duncan, the Republican candidate for probate judge, is a plain, hard working, successful merchant. He has won his way by sheer honesty and by close application to business. The immense important affairs of the probate court, those intimately personal affairs which come home to every one of us may be left to his hands with absolute safety and with the knowledge that every item of business coming before the court will be justly administered.

A. D. Clegg, the candidate for sheriff, was elected in 1908 on a ticket headed by the very men who are now seeking to destroy him. Mr. Clegg made good in the sheriff's office. Under his direction the immensely important survey of the county has been carried out and under his guidance the most important bridge structures ever built in New Mexico has been completed. His record was selected by the Bernalillo business and the public as an engineer.

Probably the most fortunate selection upon the entire Republican ticket is the combination of R. H. Pollock for the board of county commissioners. Mr. Pollock is one of the big business men of New Mexico. His tremendous success in private life is the surest guarantee of his ability that could be made. He has never had any connection with political affairs. He is just a big, successful, successful man. His interests in Albuquerque and this country are very large. These interests are the interests of the community. Mr. Pollock will select the best administration it has ever had. In this administration we will knock the socks off the politicians.

Consider this Republican ticket thoughtfully. Study it many moments. See if you can find in it a single man who is not qualified to represent the best administration of this country. This ticket gives the people the best administration it has ever had.

Compare this ticket and see with the Democrat ticket. Think carefully over the set of chronic office seekers and job seekers. Balance them against the business administration offered by the Republican party. You people of Albuquerque stop and think. Does James Remond still rank a better sheriff? Tom McMillin, whether his deputy, F. B. Heroy, will make a better assessor than James Remond? Whether this particular combination offers a better sheriff than James Remond? Whether this particular combination offers a better treasurer? Study the record of Tom Duncan and compare it with that of Mr. Clegg, the young man recently imported from Colorado who is his opponent for probate judge. Look at the record George Kosseman has made to private life and as a member of this community and determine whether or not he is competent to look out for your interests in the state senate.

Take this ticket and by your study, compare it with the other two tickets and see if you do not believe that with all political consideration, whether you be a Republican or a Democrat or a Socialist, it is entitled to your support.
